This Month's *Speaker kj4rhp*

In October, we will review the Tom Gallagher (NY2RF) presentation on "HR 4969 & Beyond". Passage of this bi-partisan bill will remove the restrictive covenant language hindering antenna erection by specifically placing amateur radio antennas within FCC Part-97 jurisdiction and extending PRB-1 protection of "reasonable accommodation" from zoning actions (specifically HOA's, deed restrictions and covenants).

Names and addresses of Congressional Legislators will be provided. But it is important to mail the letter to the ARRL as they will be making to most effective push.

It is not too late, but this maybe the last opportunity we have.

Repeater, HSMM, *& Ham Shack News*

The weekly worker group meets almost every Wednesday and Saturday morning roughly between 0900 and 1300.

At the repeater site, a power distribution block was installed to fuse the repeaters and associated equipment individually. They are no longer tied together at the power supply. The 70 cm machine was out of service for a few days. The 2m machine is operational.

Repeater 2m/70cm linking is still a work in progress as is correcting the repeater time-stamp. Testing and tweaking of the new Controller continues.

The HSMM club project is also a work in progress.

QSL Report N4JJ

As we close out the month, N4BRF has logged in 1,410 QSLs/5,012 QSOs (28.1%) on LoTW.

N4BRF DXCC Account Status: New this month Wallis & Futuna (FW) and Christmas Island (VK9X). *Awards received: Mixed, CW and Phone.*

N4BRF WAS Account Status: We have received 161 QSLs from each of the 2012 and 2013 Field Days and 189 QSOs from the 2014 Field Day activities. *Awards received: Basic. We need VT on 20m; ME on CW; ID, OR, and UT on Phone, AR, DE, and NE on both Digital and RTTY.*

N4BRF Triple Play Award Status: CW 49, Phone 47, Digital 47, Total 143 (of 150 needed). *New this month-CW: ME; Phone: ID, OR, and UT; Digital: AR, DE, and NE*

N4BRF VUCC Account Status: New this month: None. *The Fred Fish Memorial Award is still a work in progress with 51.*

Next update at the OCT-2014 Club Meeting.

Welcome Back *Snow Birds*

Returning Snowbirds are reminded that the Club's informal net is still on Monday evenings at 19:30 (7:30 PM local time) on 145.290/144.690 [PL 110.9]. We will be happy to reacquaint ourselves.

With the passing of W1IVB, KG4FUR has been filling in as our NCS.

Also, we still meet at the shack on Wednesday and Saturday mornings. Our Meetings are still at the Library on US-441/SR-7 on the First Tuesday of the Month (except major Holidays and Election Days. Also, on the long drive down south, you can begin to re-connect with us on Echolink [EC Node 826953].

Early Efforts on Behalf of "The Amateur Radio Parity Act" H.R. 4969

Bearing Fruit

Initial efforts to secure additional co-sponsors for "The Amateur Radio Parity Act of 2014" -- [H.R. 4969](#) -- are starting to produce results. As of August 5, 17 co-sponsors had signed onto the bill, which was introduced in the US House of Representatives with bipartisan support in late June. Additional co-sponsors are anticipated. H.R. 4969 would call on the FCC to apply the "reasonable accommodation" three-part test of the [PRB-1](#) federal pre-emption policy to private land-use restrictions regarding antennas. The bill's primary sponsor is Rep [Adam Kinzinger](#) (R-IL). It received initial co-sponsorship from Rep [Joe Courtney](#) (D-CT), who attended the ARRL National Centennial Convention on July 19 to discuss the measure with visitors and League officials.

"With Congress on break for August, we are encouraging our members to meet with their representatives while [lawmakers] are home on break in their districts, and urge their support for H.R. 4969," said ARRL Regulatory Information Manager Dan Henderson, N1ND. "We're very pleased with the initial response, but the more noise we make, the better our chances." He emphasized that a successful outcome requires as many co-sponsors as possible, and that's where ARRL members come into play in their role as voters and constituents.

The League's [H.R. 4969 page](#) contains information and guidance for clubs and individuals promoting efforts to gain co-sponsors for the measure by contacting their members of Congress. The web page includes a sample letter to a member of Congress and a list of "talking points." For in-person visits, the League recommends organizing small teams of knowledgeable, articulate radio amateurs to approach lawmakers one to one to plead their case.

The limited PRB-1 pre-emption currently applies only to state and municipal land-use ordinances. The FCC has indicated its reluctance to provide the same legal protections from private land-use agreements -- often called covenants, conditions, and restrictions or CC&Rs -- without direction from Congress.

H.R. 4969 has been referred to the House Energy and Commerce Committee. Rep Greg Walden, W7EQI (R-OR), chairs that panel's Communications and Technology Subcommittee, which will consider the measure. The League had approached Walden, who helped to engineer the bill.

Henderson said that in response to the "Get Behind H.R. 4969" effort at the Centennial Convention and last month's [edition](#) of the [Legislative Update Newsletter](#), more than 2000 individuals drafted letters to their congressional representatives, urging them to co-sponsor the bill. He asked League members to e-mail or mail letters directed to their US House of Representatives member to ARRL Headquarters for forwarding. E-mails will be printed beforehand, he noted. Henderson explained that this approach speeds delivery, since individual pieces of mail to members of Congress are scanned for threats. Henderson said he's already received another 200 or so letters to forward to House members.

Send letters to H.R. 4969 Letter Campaign, ARRL, 225 Main St, Newington, CT 06111. If e-mailing, include "H.R. 4969" in your subject line. All correspondence must be signed and include the constituent's mailing address.

2014 Best of Boca Award for BRARA

Our Club has been selected for the 2014 Best of Boca Raton Awards for Libraries. For details and more information please view our website: [2014 Best of Boca Raton Awards - Libraries](#)

Ft Lauderdale Annual WinterFest Boat Parade—13 Dec 2014

Amateur Radio Operators Needed

Only 110 days to go before the 2014 Winterfest Boat Parade. I know this seems a bit early to sign up, but please email me and sign up early so I know that every assignment is covered. For those that worked the parade last year will get the same assignments if they contact me immediately.

This event is shown in many different countries with over 1 million viewers. You will have a front row seat to the parade since all the parade boats (100 of them) will pass right in front of you. This is the best seat in the house!

Robin Terrill N4HHP | Commo Chairman
Ft Lauderdale Winterfest Boat Parade
email at N4HHP@att.net

February 2015 Board of Directors Elections

The General Election for the Club's Board of Directors in February 2015.

Nominations must be received by 01-November 2014. Ballots will then be distributed by email to all dues paid Club members.

Ballots must be received electronically by the February 2015 Meeting and only those with 2015 dues paid at the time of their vote are eligible to vote.

More details to follow as we get closer to the Nominations deadline.

NBEMS Update *kg4fur*

With the rapid growth of Narrow Band Emergency Messaging Systems (NBEMS), Palm Beach Emergency Messaging Associates (PBEMA) is now known as Florida Emergency Messaging Associates (FLEMA). Same role, just more inclusive.

For more information and the latest Guide and Troubleshooting, go to www.qsl.net/k4wrc/PBC-BASIC-NBEMS.html or simply Google "Palm Beach NBEMS"

There are currently three NBEMS nets locally meaning three times the opportunities for NBEMers.

- ⇒ The South County NBEMS Net on the 145.290 -0.600 [PL 110.9] repeater **meets Mondays at 20:00.**
- ⇒ The PBC NBEMS Net on the 147.285 +0.600 [PL 103.5] repeater **meets Tuesdays at 1930.**
- ⇒ Knights of the Round Table Simplex Net 146.550 **meets 1st & 3rd Saturdays at 10:00.**

Already on board in addition to BRARA, Wellington Radio Club and Knights of the Round Table are Broward EOC, Central & South PBC ARES, Eagle Wings Foundation, Jupiter Lighthouse Radio Group, PBC Skywarn, Platinum Coast Amateur Radio Society.

It also works on GMRS, CERT, Red Cross and other frequencies.

SCARES Net *kk4ati*

The South County ARES Net is at 7:00 PM Wednesdays preceding the North County ARES 7:30 PM net and the Central County ARES 8:00 PM net.

Notes: These nets are to TEST out your Radio Equipment and Operator Training.

- ♦ The primary net repeater is 147.225 MHz +600 kHz offset [PL 107.2].
- ♦ The secondary repeater is 146.820 MHz -600 kHz offset [PL 110.9].
- ♦ The tertiary repeater is 145.290 -600 kHz offset [PL 110.9].
- ♦ Simplex frequencies include 146.550 MHz (SCARES), 147.530 MHz (EOA5), and 147.550 MHz (EOA6).

Club Net

145.290 -0.600 [PL 110.9] EC-826953
Monday Evening Informal Net @ 1930

Remember that we are as close as Echo Link [EC 826953]. So stay in touch with us on Monday nights at 19:30 (7:30 PM our local time). KG4FUR, our NCS, looks forward to Echo Link contacts. We all do!

Frank London
W1VB
ARRL Life Member

With Frank's passing, there is a sizable void in our hearts. His presence and knowledge will be sorely missed.

Although no one can fill his shoes, Marcos Raijer (W3EZB) will serve the remainder of Frank's term as Director and Gerry Gawaldo (KG4FUR) is serving as the Monday Night info net NCS.

The Club voted to secure a brick for the ARRL walk. Maryann (KB1ZTH), at the ARRL HQ, suggested and the Board approved the above title inscription. A replica will be presented to Ina, Frank's wife.

No one can replace him. He meant so much to all of us and we are still finding things undone that Frank just did, because that was Frank.

So long and final 73s my friend.

Greetings to all from
Jeff,

Myra and I attended the ARRL Southeastern Division Convention in Huntsville, AL last month. They hosted one of the regional ARRL Centennial events; the last one in the east. Highlighted by the traveling ARRL Expo, a number of excellent forums and good attendance, the Huntsville Hamfest is becoming one of the larger shows on the Hamfest/Convention circuit.

I know that I'm beginning to sound like a broken record, however, we cannot lose our momentum with going forward with our support of HR 4969. If you have not already done so, please contact your Congressperson. Write a letter of support, forward it to ARRL by **Sept. 12th** for distribution and make an appointment to visit with them. Ask them to support HR 4969 and to co-sponsor the bill. I cannot over emphasize how important it is for everyone to sign on with this effort. For more info, please visit <http://www.arrl.org/news/crunch-time-letters-urging-house-members-to-support-h-r-4969-due-at-headquarters-by-september-12>

Congratulations to the members of the Boca Raton ARA upon earning the ARRL Special Service Club designation. Affiliated clubs can become an SSC by meeting certain requirements. For more info, contact our Affiliated Club Coordinator, Steve, N4SGL at n4sgl@arrl.net

We are looking for an individual to head up our Section Youth program. This is a SFL Section staff appointment who will work closely with the Section Manager and Affiliated Club Coordinator. For more info on the Section Youth Coordinator position, please visit <http://www.arrl.org/section-youth-coordinator> If you are interested, just drop me an email or give me a call.

Mark your calendars for October 10-11th for the Florida State Convention at Melbourne. Held in conjunction with the 49th Melbourne Hamfest at the Melbourne Auditorium, this show has become a major event in the SFL Section. Meet with your Division Director/Vice Director and the SFL Section staff at the ARRL booth. Our special guest from ARRL HQ will be Bob Allison, WB1GCM from the ARRL Lab. For more info, please visit <http://www.arrl.org/hamfests/florida-state-convention-melbourne-hamfest-3>

The annual Simulated Emergency Test will be held in the SFL Section on October 18th. For most ARES groups, the SET is a part of their ongoing

training program. Details on the SET can be found on page 75 in the September QST. For more info on how you can participate in the SET, contact your local EC or the DEC in your District. Please remember that we are now in the peak of the storm season. Fortunately, it has been quiet so far, however, it just takes one, so don't become complacent. Be prepared for what might come our way.

Silent Keys- It is with deep regret that we report the passing of the following SFL members:

Wade J. (Jim) Bayless, W4BAL of Cocoa. Jim was active with Brevard County ARES and BEARS. Jim was also an ARRL Official Emergency Station.

Frank J. London, W1VB of Delray Beach. Frank was an active member of the Boca Raton ARA and the Florida Atlantic University ARC and an ARRL Life Member.

Well, I guess that's about it for now. My thanks for all that you do for Amateur Radio. Get on the air, Elmer a new ham, support your local club and ARES group but most of all, have fun.

Vy 73,

Jeff Beals, WA4AW
ARRL Southern Florida Section
Manager
wa4aw@arrl.org

**444.700 MHz BRFD/
KC4GH is back**

The 444.700 Amateur Repeater licensed to the Boca Raton Fire Rescue Service/KC4GH is back up and running. It is the secondary repeater for BRFRS CERT Plan B net on Tuesday evenings at 7:30 and when Boca CERT is activated. Otherwise is an open repeater just like the 147.255 machine. Enjoy.

DMR Radio Interest

Following KS4VT's DMR presentation last month there has been expressed interest in purchasing the low cost CS700 HT. Although, Connect Systems Inc, the US distributor, cannot offer a quantity discount, we can get a shipping cost discount, if we order in bulk. If you are interested, please contact either KB1MPI or KG4FUR. Current prices:

- \$180 CS700 UHF Radio
- \$5 Programming Cable
- Free PC Program
- \$30 Extra Battery (Li Ion)

www.connectsystems.com

JOTA

Jamboree On the Air

and the Club ko4xl

Jamboree On The Air (JOTA) is a major annual Scouting event held world-wide. On the third weekend in October, Amateur Radio Operators and Scouting youth in each country join up to enable the Scouts to reach out via ham radio to their counterparts in other countries and locales, share their Scouting experiences and make new friends. Every country which has a Scouting program and allows third-party traffic participates in JOTA, making it the largest annual Scouting event in the world. This year's event will take place starting Friday evening, October 17th at 6pm local time and last until Sunday morning, October 19th, at midnight local time.

BRARA has a long history of supporting JOTA. In 2011 and 2012, BRARA hosted Boy Scout Troop 306 at our shack on JOTA weekend. In 2013 and again this year, we are supporting Gulf Stream Council in their annual JOTA campout. Every year it has been a rewarding experience for Scouts and club members alike. Contacts have included Boy Scouts of America headquarters, Boy Scout camps and encampments, military bases hosting Boy Scout troops and even the MARS station at The Pentagon. (They were operating on amateur frequencies at the time and hosting a local Cub Scout troop!)

This year, active Scouters in three South Florida radio clubs (including our own) have combined forces to support Gulf Stream Council's JOTA event, which will be held at Tanah Keeta Scout Reservation in Tequesta. The event will include Scouts and Scouters from throughout Gulf Stream Council, the BSA governing body for the area spanning from Palm Beach County through Indian River County.

Each radio club is providing a station and a team of operators to establish and manage the stations and assist the Scouts in making contacts. Between 100 and 200 Scouts are expected to attend. In addition to operating JOTA, the youth will have a weekend camping experience and the opportunity to study and earn one of five different merit badges. A Laurel VEC testing session will be held on Sunday morning for any youth who are ready to obtain their own radio license.

Not only is BRARA providing a station for the weekend campout at Tanah Keeta Scout Reservation, but we have also invited several local groups of Cub Scouts to participate at our own shack. While we cannot provide the full experience of a weekend at Scout camp, it is certain to be an exciting experience for these young boys to get their first taste of ham radio! Many of us began our interest in radio at that age, so we're sure to see some of these boys (and their parents!) in our future license classes and VE sessions!

Whether you are at our shack or at your home QTH, please listen for and respond to any "CQ Jamboree" or "CQ JOTA" you happen to hear. We'll be using the club call, N4BRF at our shack, and the Scouts up at camp will be using the club call of the Tanah Keeta Amateur Radio Association, KK4OAL.

This is everyone's chance to get a young person excited about amateur radio. It's the easiest Elmering you'll ever do!

JOTA officially begins at 0000 hours local time on the third Saturday in October, and runs through 2400 hours local time Sunday night. A tune up/warm up period is permitted starting at 1800 hours local time Friday, to make test contacts and provide instruction to the youth. This year's JOTA dates are Friday October 17th through

Sunday October 19th. For more information about JOTA, Scouting or this year's event at Tanah Keeta Scout Reservation, please contact Bruce Ratoff, KO4XL.

Planned Shack JOTA Participation

Cub Scouts:

Pack 318 will be visiting the Shack on Saturday morning, 18-Oct-2014 as part of the JOTA (Jamboree of the Air) Weekend. Please take the time to come to the shack and promote our hobby. Maybe, even encourage some to get on the air-Control operator required. Ron (W2DO) will be orchestrating the event for the Cubbies.

Other local packs may also be visiting the shack Saturday morning.

Boy Scouts VE Session:

Ron (W2DO) is also coordinating a VE session on Sunday, 19-Oct-2014 at the Tanah Keeta Scout Reservation for all desiring to take the Tech test (or higher).
